

DANIELS CHARGE UNJUST, DECLARES NAVY LEAGUE HEAD

Thompson Finds Nothing to
Justify Secretary's "Temper
or His Attack."

Robert M. Thompson, President of the Navy League of the United States, has issued a statement to all the members of the league in regard to the action of Secretary of Navy Daniels in directing that "in view of the slanderous and false statement of the Navy League reflecting upon the honor of the Navy administration and the integrity of the officers of the Navy, for which responsibility is accepted by its officers, notice is hereby given to the public that the Navy Department has directed that no officer, agent or representative of the Navy League will be admitted to any naval station, naval reservation or ship in the Navy, &c."

Col. Thompson's statement follows: "Certainly the Navy League has not made the slightest reflection upon the integrity of Secretary Daniels or upon that of any naval officer. What it did was to draw attention to the fact that statements were being circulated that the Maine Island explosion was the result of a conspiracy, and that the inquiry into this was being blocked. We did this because when such beliefs exist, and are untrue, they should be publicly and authoritatively denied, and if true some one should suffer."

"When the history of this terrible war comes to be written, matters of much less importance than an attack by a Cabinet officer upon a great patriotic society will be carefully investigated, and every fact explaining such a situation will be considered."

"After reading the bulletin of which Secretary Daniels complained, I find absolutely nothing to justify his temper or his attack."

"You have in the past cordially supported the maintenance of the Navy League, and I believe that we have justified your support by the work we have done."

"For some time, for reasons known to himself, Secretary Daniels has been unwilling to co-operate with the Navy League. When we offered to provide a committee and funds to look after the dependant families of the men who were enlisting in the navy he refused us the opportunity. When we offered to donate \$50,000.00 of insurance to the men of the navy without cost to them, he refused to permit them to accept it."

"He has now demanded my resignation, because he is displeased with a bulletin which was issued as a matter of routine, without my personal knowledge."

"In the meantime there is one thing for us, as loyal Americans, to do—to support the Administration wholeheartedly in the prosecution of this war, and to do this I pledge myself."

A Never Failing Way to Banish Ugly Hairs

(Aids to Beauty)

No woman is immune to superfluous growths, and because these are likely to appear at any time, it is advisable to always have some depilatory powder handy to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy surface. In about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real depilatory.—Advt.
